

# Material Safety Data Sheet

Drilling Foam XF (RXSOL-81-1774-220)

## 1. Product and Company Identification

Product Name Drilling Foam XF RXSOL-81-1774-220

Part Number : RXSOL-81-1774-220

### Company Details:

RX MARINE INTERNATIONAL  
105, A wing , BSEL , TECH PARK.  
VASHI ,NEW BOMBAY 400703 INDIA

Branch : Kandla, Mumbai, JNPT, Chennai, Vizag, Kolkata, UAE, and OMAN

Phone +91 22 20871200 - 20871500

Fax +91 22 27612100 ::AOH :0091 9821214367

Email [123@rxmarine.com](mailto:123@rxmarine.com)

## 2. Composition / information on ingredients

| Name of Substance      | Cas Number          | Wt. %     |
|------------------------|---------------------|-----------|
| Solvent                | 34590-94-8          | 20 - 50%  |
| Hydrocarbon surfactant | Proprietary Mixture | 10 - 30%  |
| Stabilizer             | 102-71-6            | 10 - 30%  |
| DI Water               | 7732-18-5           | 10 - 30 % |

## 3. Hazards Identification

Signal Word None

Hazard Statements Causes skin irritation. Causes serious eye irritation

Precautionary statements - prevention Wash hands thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection.

Precautionary statements - response IF ON SKIN: Wash with plenty of water and soap. Specific treatment (see First AID Section on this label). If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash before reuse. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing. If eye irritation persists get medical advice/attention.

## 4. First Aid Measures

Eye Contact Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.

Skin Contact Wash off immediately with plenty of water for at least 15 minutes. Use a mild soap if available. Wash clothing before reuse. Thoroughly clean shoes before reuse. Get medical attention immediately.

Inhalation: If inhaled, If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Call a physician.

Ingestion: If swallowed, do not induce vomiting. Allow victim to rinse his mouth and then to drink 2-4 cupfuls of water. Never give anything by mouth to an unconscious person. Call a physician.

Notes to Physicians Treat symptomatically.

## 5. Fire-fighting Measures

|                                |                                                                          |
|--------------------------------|--------------------------------------------------------------------------|
| Suitable extinguishing media   | Material is itself a fire extinguishing agent.                           |
| Protective Equipment           | Use personal protective equipment.                                       |
| Hazardous combustion products  | NA                                                                       |
| Advice for firefighters        | Wear self-contained breathing apparatus. Wear full protective equipment. |
| Specific extinguishing methods | NA                                                                       |

## 6. Accidental Release Measures

|                                                       |                                                                                                                                                                                                                                                                                                  |
|-------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Environmental Precaution                              | Do not allow contact with soil, surface or ground water. If the products get into drains, inform the relevant authorities immediately.                                                                                                                                                           |
| Methods and materials for containment and cleaning up | Stop leak. Use appropriate protective equipment during cleanup. Collect spilled concentrates. Rinse the affected area with plenty of water until it no longer foams. Care should be taken to avoid slip hazard. Disposal should be made in accordance with federal, state and local regulations. |

## 7. Handling and Storage

|                                        |                                                                                                                                                         |
|----------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|
| Advice on safe handling                | Avoid getting chemicals on you or in you. Wash hands after handling chemicals. Don't eat or drink while handling chemicals.                             |
| Storage                                | NO Special conditions are required for safe storage. Store in original container. As much as possible keep from being washed into surface water.        |
| Advice on general occupational hygiene | Wash hands after use. Do not to eat, drink and smoke in work areas. Remove contaminated clothing and protective equipment before entering eating areas. |

## 8. Exposure controls and personal protection

|                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|---------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Engineering Control | Normal                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Personal Protection | Eye protection : Wear eye protection/ face protection.<br>Hand protection : Wear the following personal protective equipment: Standard glove type. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough. Skin protection : Personal protective equipment comprising: suitable protective gloves, safety goggles and protective clothing<br>Respiratory protection : When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. |
| Hygiene measures    | Handle in accordance with good industrial hygiene and safety practice. Remove and wash contaminated clothing before re-use. Wash face, hands and any exposed skin thoroughly after handling. Provide suitable facilities for quick drenching or flushing of the eyes and body in case of contact or splash hazard.                                                                                                                                                                                                                         |

Gloves

Suit

## 9. Physical and chemical properties

|                                 |                 |
|---------------------------------|-----------------|
| Physical State                  | Liquid          |
| Colour                          | Amber           |
| Odour                           | Characteristic  |
| Boiling point and boiling range | 100°C (Initial) |
| Flash Point                     | Non Flammable   |
| Freezing Point                  | - 5°C           |

|                                |                     |
|--------------------------------|---------------------|
| pH                             | 6.5-8.5 at 20°C     |
| Evaporation rate               | No data available   |
| Flammability (solid, gas)      | No data available   |
| Upper explosion limit          | No data available   |
| Lower explosion limit          | No data available   |
| Explosive properties           | No data available   |
| Vapor pressure                 | No data available   |
| Relative vapor density         | No data available   |
| Specific Gravity               | 1.00-1.03 at 20?1°C |
| Water solubility               | Soluble             |
| Solubility in other solvents   | No data available   |
| Partition coefficient: octanol | No data available   |
| Autoignition temperature       | No data available   |
| Thermal decomposition          | No data available   |
| Viscosity, kinematic           | No data available   |
| Explosive properties           | No data available   |
| Oxidizing properties           | No data available   |
| Molecular weight               | No data available   |
| VOC                            | No data available   |

## 10. Stability and reactivity

|                                    |                                                                                                                   |
|------------------------------------|-------------------------------------------------------------------------------------------------------------------|
| Recativity                         | None                                                                                                              |
| Stability                          | Stable under normal conditions.                                                                                   |
| Possibility of hazardous reactions | No dangerous reaction known under conditions of normal use.                                                       |
| Incompatible materials             | Avoid use of product on burning metals, electrically energized equipment and contact with water reactive material |
| Hazardous Decomposition            | Not Known                                                                                                         |
| Condition to Avoid                 | None Known                                                                                                        |
| Polymerization                     | Will not occur.                                                                                                   |

## 11. Toxicological information

|                                  |                                       |
|----------------------------------|---------------------------------------|
| Route of Exposure                | Inhalation, Eye contact, Skin contact |
| Eyes                             | Causes eye Irritation                 |
| Skin                             | Causes skin Irritation.               |
| Permissible Exposure Limit, LD50 | >8 gm/Kg body wt. of rat (oral)       |
| Acute inhalation toxicity        | No data available                     |
| Acute dermal toxicity            | No data available                     |

## 12. Ecological information

|                                |                                                                                                                                                                                      |
|--------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Environmental Effects          | No data available                                                                                                                                                                    |
| Toxicity to fish               | No data available                                                                                                                                                                    |
| Toxicity to daphnia and others | No data available                                                                                                                                                                    |
| Toxicity to algae              | No data available                                                                                                                                                                    |
| Biodegradability               | This product is an ecologically inert material. It does not contain ozone depleting substances and is not expected to exert an eco-toxic effect or bio-accumulated in the food chain |
| Persistence and degradability  | No data available                                                                                                                                                                    |
| Bioaccumulative potential      | No data available                                                                                                                                                                    |

Mobility in soil

No data available

### 13. Disposal considerations

|                |                                                                                                                                                                                                                                                                                                      |
|----------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Remarks        | Please consider the relevant national or regional provisions. Waste shall be separated into the categories that can be handled separately by the local or national waste management facilities.                                                                                                      |
| Waste Disposal | Prevent discharge foam/foam solution to waterways without treatment. Waste disposal should be made in accordance with central, state and local regulations. Waste may be incinerated or disposed of by treatment at a permitted facility only with permission or as advised by competitive authority |

### 14. Transport information

Hazard Pictograms:

|                                 |        |                                     |
|---------------------------------|--------|-------------------------------------|
| UN                              | Number | NA                                  |
| Proper shipping name            |        | Not classified as Hazardous Product |
| Transport hazard class(es)      | 8      |                                     |
